## BLOCKCHAIN DEVELOPER

---

### Smart Contract Development | Cryptography and Blockchain Security| Decentralized Application (dApp) Development

I am a highly skilled Blockchain Developer with experience in designing and implementing decentralized applications (dApps) and smart contracts. With a background in computer applications and a strong understanding of blockchain technologies, I am adept at creating secure and efficient solutions to help businesses scale and innovate. My technical proficiency combined with a passion for emerging technologies enables me to deliver impactful results in blockchain development.

## WORK EXPERIENCE

---

### **Global Prime Taxation** – Hyderabad, India Nov 2023 - Apr 2024

#### *US Tax Consultant*

As a US Tax Consultant, I specialized in providing tax strategies for clients and ensuring compliance with federal and state tax regulations.

- Developed tax strategies that minimized liabilities for clients.
- Provided insights on tax planning and risk management.
- Assisted clients during audits, ensuring smooth resolution of issues.
- Stayed updated with tax law changes to provide accurate advice.

### **Princess Esra Hospital** – Hyderabad, India Jan 2023 – Nov 2023

#### *CCTV Operator*

Responsible for monitoring and maintaining CCTV systems to ensure the safety and security of the hospital.

- Analyzed surveillance footage for suspicious activities and ensured the safety of the premises.
- Maintained and troubleshooted CCTV equipment to guarantee uninterrupted monitoring.
- Trained new staff members on operating surveillance systems effectively.
- Coordinated with security teams to implement effective safety measures.
